

Field Leadership Essentials

Target Audience

Anyone who is currently a field leader, in line to become a field leader, or wants to learn what it takes to be a field leader.

Elevate your team's potential with field leadership training!

Field leaders are on the frontline of every electrical contractor's success and the success of our industry. NECA's Field Leadership Essentials program is an intensive, one-day learning experience designed to enhance the leadership skills of new and up-and-coming field leaders by providing the "must know" topics for field leaders in the electrical contracting industry. This course focuses on the knowledge and skills that every field leader must learn to be an effective manager of people, time, equipment and materials.

Participants will learn how to:

- Explain the field leader's roles and responsibilities
- Use effective communication techniques on the jobsite
- Describe how to better support crews
- Identify the characteristics and behaviors of good leadership
- Motivate crews based on individual and situational needs
- Use a step-by-step process to make better decisions
- Describe the supervisor's role in harassment prevention
- Describe the benefits of developing a positive mindset around diversity, inclusion, equity and belonging
- Describe steps you can take to improve crew productivity
- Describe the importance of different types of schedules to the construction process
- Describe the components of costs on a job
- Explain the business impact of poor tool and material management
- Define common types of estimates and the components of a bid estimate
- Describe the supervisor's role in creating and maintaining a safe working environment

This course can be delivered locally at NECA Chapters and within NECA member companies. Learn more at www.necanet.org/FieldLeadership
